## Product applications

产品应用

垂直升降电镀生产线  
Vertical Lifting Electroplating Machine

垂直升降电镀线适用于中、小工件的小批量生产，主要用于五金、ABS电镀行业挂镀镍、铬、青铜、银等。全线可采用电动、液压的传动方式，运行平稳可靠、噪音小；可采用电脑自动控制系统，PC可编程序控制器控制，操作动作简单、准确；速度时间可根据电镀工艺的各项技术要求进行任意调控。可设缓冲装置，镀件夹持稳固；大大减少操作人员，提高电镀品质，生产效率高，产量大。

Adaptable to medium/small size work piece small batch production, mainly applied to hardware 、ABS rack type nickel、 Chrome、 Bronze、 Sliver and etc. Whole line adopt electric, hydraulic transmission mode, smoothly running small noise; full auto computer control system, programmable PLC control; The speed and time could be regulated following every stage requirements. It could be setting up a buffer device, plating clamping is stable; greatly reduce the operator, improve the quality of electroplating, high production efficiency, large capacity.

龙门式挂镀生产线  
Gantry Type Rack Electroplating Machine

**龙门式挂镀生产线**适用于五金及ABS镀铜、镍、铬、锌、铝氧化、硬铬及其它先进工艺要求，可根据用户需要满足各种电镀中的功能性及装饰性要求，线结构合理，外形美观、操作方便，并可根据客户要求设计全自动和半自动两种操作，电脑可编程控制的全自动操作系统可用屏幕显示，定位性高。龙门行车行走平稳，全线各道工序实现工序控制，变频调速，适用于各种尺寸的镀槽，是一种适应性较广泛的自动线。

Applicable to hardware and ABS Copper, Nickel, Chrome, Zinc, Anodic oxidation and other advanced technology, satisfy a variety of electroplating in functional and decorative requirements. It could be customize to full auto and semi-auto operation type, program process running by screen display under PLC control. Due to its hoist running smoothly, process stage control, frequency speed, suitable for all size plating tank, be widely using in kinds plating industry.

EXCELLENCE EXCELLENCE

**TIANYI**

Industrial advantage

全自动磷化线  
Full Auto Phosphating Line

悬臂式电镀生产线  
Full Auto Single Arm Electroplating Machine

悬臂式电镀生产线适用于五金及ABS各种镀种需要，生产效率高，镀层均匀，质量好。

其主要特点如下：

- ◆ 大幅度提高劳动生产率，性能稳定良好；
- ◆ 传动装置设置线连轴传动和单机传动结构；
- ◆ 自动上下料装置及手工上下料均能满足要求。

Applicable to hardware and ABS a variety of plating needs, high production efficiency, uniform coating, good quality.

Mainly feature as below:

- ◆ Significant labor productivity, stable performance;
- ◆ Transmission device set up the whole line of shaft drive and stand-alone transmission structure;
- ◆ Satisfying with automatic loading and unloading device and manual loading and unloading type.

## 龙门式滚镀生产线 Gantry Type Barrel Electroplating Machine

**龙门式滚镀线**适用于各种小零件大批量生产及各种镀种需要，生产效率高，镀层均匀，质量好。

主要特点如下：

- ◆ 大幅度提高劳动生产率，性能稳定良好；
- ◆ 传动装置设整线连轴传动和单机传动结构；
- ◆ 滚筒可采用PP、PVC板材或压铸型材料；
- ◆ 自动上下料装置及手工上下料均能满足。

Applicable to all kinds small parts mass production and a variety of plating requirements, high production efficiency, uniform coating, good quality.

Mainly features as follow:

- ◆ Significant labor productivity, stable performance;
- ◆ Transmission device set up the whole line of shaft drive and stand-alone transmission structure;
- ◆ Drum is made of PP, PVC sheet or die-casting materials;
- ◆ Satisfying with automatic loading and unloading device and manual loading and unloading type.

## 废气处理装置 Waste Gas Treatment Equipment

废气处理装置广泛应用于治理化工、电镀、冶金、酸洗、五金、仪表、电子等行业的表面处理或生产反应过程中所产生的工业废气。

Waste gas treatment equipment is widely used in chemical industry, electroplating, metallurgy, pickling, hardware, instrumentation, electronics and other industries in the surface treatment or production of industrial waste gas generated in the reaction process.
